About Me

A student in Vancouver on my last semester, pursuing full-time employment as a User Experience Designer. Additionally, I'm experienced and really interested in web development and graphic design. I also like cars, counter-strike, and sketching with my eyes closed.

Most important to me in the work that I do is keeping things simple, taking risks, and being able to communicate a vission.

Education

Bachelors of Science, Interactive Arts and Technology, Simon Fraser University, Vancouver BC.

WORK EXPERIENCE

CANADIAN TIRE
UX Research & Analysis, Coop
Jan - May 2018

Developed and implemented web content for Triangle Learning Academy, Canadian Tire's new online corporate university. Designed and delivered targeted marketing campaigns for upcoming events. Worked with third-party businesses to test and develop new marketing solutions.

SERVICE CANADA
Project Officer, Coop
May - Sep 2017

Redesigned and maintained multiple web pages containing resources for new student hires. Analyzed usage data to aid the development of multiple upcoming service delivery initiatives. In my spare time, I designed and developed a website for a new project in a seperate department.

JKA inc.
3D Modeling and Rendering, Freelance
Jul - Sep 2016

Created high-fidelity 3D models and renderings for an ongoing residential construction project. Was responsible for giving the homeowners a simple yet thorough view of their future home. A straightforward project that required great attention to detail as well as the ability to learn on the go.
